EXPERIENCE

JBB Technologies Pvt Ltd

PHP and my SQL Developer :

- Successfully completed a Software Development internship at JBB Technologies Pvt. Ltd., where I worked on a CRM project, implementing features like **dashboard UI, ticket handling, notifications, and database integration**

EDUCATION

-Maharashtra Institute of Technology Chhatrapati Sambhajinagar

B.Tech in Computer Science & Engineering

2022 – 2026

CGPA: 8.24

-Secondary and Higher Secondary College Rakshasbhuvan

Higher Secondary Certificate (PCM)

2020 – 2022

Percentage: 78.50%

-Shreenath Madhyamik Vidhyalay Gulaj

Secondary School Certificate

2019 – 2020

Percentage: 87%

SKILLS

-Technology: Python, PHP, SQL, Data Science, AI, Machine Learning, Natural Language Processing (NLP), Deep Learning, PowerBI, Advanced Excel, LangChain, Large Language Models (LLMs)

-Tool: VS Code, Postman, CodeIgniter (Php Framework), PowerBI, Excel, PyCharm, Git, GitHub, MySQL, Python libraries, Jupyter Notebook, Google Colab, AWS, Python interpreter.

-Soft Skills: Analytical Thinking, Problem Solving, Quick Learning, Adaptability, Effective Communication, Team Management

PROJECTS

- **Smart Traffic Congestion And Prediction Dashboard- AI/ML Based Project** 2025-2026
 - To detect and predict traffic congestion in real time using **AI and ML techniques**.
 - To reduce time-consuming delays and improve traffic flow.
 - To enhance road safety and support smart city development.
- **Automated Mcq Generator Dashboard - AI Based project** 2025-2026
 - To develop an **AI-powered system** using **Python and NLP** for automatic MCQ generation.
 - To create **high-quality, contextually relevant questions** from text or PDFs.
 - To simplify **assessment and exam preparation** processes.
- **Language Detection System (NLP/ML)** 2024-2025
 - Using **Python, NLP, and Machine Learning**, developed a system that accurately detects the language of a given text.
 - Applied NLP, and ML techniques for efficient language classification and text processing.
- **Fraud-Analytics-Using-AI-ML** 2025-2026
 - Built a machine learning fraud detection system to identify fraudulent transactions.
 - Performed data cleaning and analysis, **handling imbalanced data**.
 - Evaluated model using **precision, recall, and F1-score**.

PROFESSIONAL CERTIFICATIONS

- **Power BI & Advanced Excel**
- **Master Industry Grade Python Skill**
- **Minor degree in Data Science - In Progress**

ACHIEVEMENTS

- Participated in GEN Hackathon in 2025
- Successfully organized and actively coordinated national events (Technophilia) during 2024 organized by college, showcasing leadership and teamwork skills.
